Evaluation Criteria

(For Oral Presentations and Posters)

1. Background Information and Reason for Doing the Work (10%)

At the beginning of the presentation, briefly summarize past research/work on the topic and explain its relationship to the present study. References should be relevant. Include a description of how, when, and why the work was done.

2. Visual Aids (20%)

Visual aids for oral presentations may be slides, overhead transparencies or Power Point presentations. For posters, visual aids may consist of data tables, graphs, and/or photographs. They will be judged on quality and content.

3. Material Methods (20%)

Present precise, but concise descriptions of the procedures used.

4. Results and Discussion (25%)

Present the Data in an orderly manner and discuss it concisely.

5. Summary and Conclusions (15%)

Briefly summarize the data presented and draw logical conclusions.

6. Response to Questions (10%)

Answers should convey the student's grasp of the subject matter.

NOTE: In addition to the above stated criteria, the presenter will be judged on the quality of the oral presentation, i.e. clarity of speech, organization of the narrative.
